Targeted advertising

We help you reach your target group using targeted campaigns. Together we make sure you to get the most out of your investment, keeping your marketing budget in mind. There are several advertising options to do this, which are categorized according to the 3 phases of a customer's journey: **Touch** (display advertising), **Tell** (native advertising) and **Sell** (performance advertising).

Display advertising

Touch

In the Touch phase we offer brand awareness with high-impact display ads. There are several formats available for desktop, tablet and mobile.

D1. Billboard (970x250)

Display with guaranteed placement on a prominent advertising-position, which is directly visible when opening the site.

D2. HPA (300x600) / Rectangle (300x250)

Display with guaranteed placement on an advertising-position at the right side of the website.

Display advertising

Touch

D3. Mobile banner (300x250)

Display with guaranteed placement on the mobile version of the website.

Interesting factors:

- This banner is visible during important campaigns
- You reach a **new relevant** audience
- **More assisted conversions** by building a relevant base

Native advertising

Tell

In the Tell phase we gain the interest of our audience by explaining the unique aspects of your product, service or deal in a native advertisement. We offer several highlighted or sponsored content positions on our homepage.

N1. Featured header

Outstanding responsive advertisement in the header on all pages. The Featured header is a native banner, so it will not be blocked by ad-blockers. The ad generates approximately 350.000 views on a weekly basis.

Interesting factors:

- You will gain **extra exposure** on a specific campaign or other proposition, potentially in combination with a specific product

N2. Advertorial

This is a sponsored article, written by our editorial department. It will stay on the homepage for 1 week. The length of the article is approximately 600 words, and will be boosted through our social media channels and via our newsletter. Moreover, an advertorial will always exist on our platform. So even after 1 week on the homepage, the advertorial can still be found by visitors. Also, it also creates the opportunity to share the advertorial on a different website. On average, an advertorial generates 2.000 to 3.000 sessions, has an average session period of 3 minutes and a potential CTR of up to 30%.

Interesting factors:

- **Enlarge brand connection** with current trending topics
- **Sustainable advertising**; the article will always exist
- It creates the **opportunity to explain more** about a specific campaign on an external blog

Native advertising

Tell

N3. Contest

A contest helps to maximize exposure and increases the direct buying intention of a relevant target group.

Depending on the incentive, on average we generate 1.000 – 2.000 participants per contest.

N4. Monthly theme

Each month a specific subject forms a monthly theme. This can also be sponsored by an advertiser. The content written about this subject is editorial. The advertiser will be named as sponsor for every article that is written about this theme. Also, the brand name with its logo will be named in the topic slider on the home page.

All display positions and ad-in-content in and around these articles are filled with the proposition of the advertiser. The display positions we use are: billboard, HPA and the mobile banner.

Performance advertising

Sell

In the Sell phase we offer performance campaigns, aiming for conversions or generating purchases of your product or service.

P1. Tip Block

A tip block is an outstanding responsive advertisement on a prominent position on a device page. You may show a device-specific proposition on a purchase targeted page.

P2. Ad-in-content

Responsive advertisement (in-read) in all articles. Targeting on brand is possible (for Android Planet) to connect the campaign even better with the audience. This ad generates over 300.000 views per site on a weekly basis.

Interesting factors:

- This creates a **targeting possibility** for all pages that are tagged with a brand (news/tips/product pages)

Performance advertising

Sell

P3. Highlighted deal subscriptions

Sponsored deal at the top of our price comparator for mobile subscriptions, our deal unit and our top 5 widget.

P4. Highlighted deal product (new or refurbished)

Sponsored deal at the top of our price comparator for products, our deal unit and our top 5 widget.

Performance advertising

Sell

P5. Integration subscriptions or products (new or refurbished)

Product integration of smartphones via data feeds. The price comparator differentiates through the huge range of preferences that visitors can select. Examples are storage, colour and delivery period. Whenever the feed contains a device with a subscription (or a renewal of an existing subscription), preferences that can be chosen also change. These include the amount of monthly minutes, MBs for data and the provider. The visitor will immediately see which shop has the best available deals.

For refurbished devices we have the filter 'condition' and 'quality mark' added.
